Customer Vue | Customer Roundtable: Lessons from Your Peers

In case you missed the last roundtable, you can listen to fascinating use cases, insights, and lessons learned shared by your peers. RichmondWorks from California shared their constant focus on business engagement and job placements across multiple programs—sector strategies, job placements, training programs, and rapid response. CareerSource Capital Region from Florida shared her innovative approach to building strong business partnerships within the community through a Business Luncheon program and its evolution in the second year. Product Vue | Business Expansion

Workforce development professionals can identify stable companies looking to expand operations in your community in seconds. This insight allows WDBs to connect those businesses to network partners. Start your search by filtering by stable businesses with 10-50 employees, low risk of business failure, and signs of growth - an increase in demand and an increase in scale. For example, using ProspectVue, Business Services teams in Detroit, Michigan, can quickly narrow their outreach efforts from the **1,100 manufacturers** in the workforce area to the **37 companies** most likely to be in the early stages of expansion.

The screenshot displays the ProspectVue interface with the following components:

- Search Panel (Left):** Shows filters for 'Manufacturing' and 'Size of Company'. The 'Size of Company' filter is set to '10 to 50 employees'. Other filters include 'Material Change Score' (Low, Medium, High) and 'Remaining Stable' (Stable, Growing).
- Map (Center):** A map of Detroit, Michigan, with red pins indicating the locations of 1,100 manufacturers. A shaded area highlights the 'Workforce Development Area'.
- Summary Callouts (Right):** A series of callouts showing the filtering process:
 - All manufacturers in the WDB region: 1,100 companies
 - + Employee Size Filters: 10-50 Employees
 - + D&B Data Filters: Low Financial Stress + Stable + 2 Growth Indicators
 - = 37 companies more likely to be ready for expansion

Use Case Vue | Goodwill Training Program | TAA Program

This month, we feature new use cases on two workforce programs - [Goodwill Training Program](#) and [TAA Program](#). While both require workforce boards to identify and target employers, one focuses on recruiting financially stable and growing employers for specialized Goodwill Training program, and the other focuses on identifying foreign-owned manufacturers with declining operations and higher risk of failure

Follow us on [LinkedIn](#) for new use cases weekly.
